**Jeanne M. Mrazzozo, MD, MPH**, University of Alabama at Birmingham
- 2:35 – 2:45 PM *Question-and-Answer Session*
- 2:45 – 2:50 PM **Closing Remarks**

# IAS–USA Virtual Update on HIV: Antiretroviral Therapy, New ART Drugs and Strategies, and the Impact of COVID-19 on HIV

We know it is difficult to dedicate an entire day to participate in a virtual course during this time, so we have narrowed down the topics to the key issues most of you are currently focused on. Other topics related to comorbidities, issues in aging, and so on will be covered in our [COW webinar programing](#).

Though the timing is to accommodate our East Coast audience, the course will be open to everyone. We will have a virtual course on West coast time on June 29 and one on Central time in late July. Check the IAS-USA website regularly for details.
