Ferric C. Fang, MD, University of Washington
- 2:50 – 3:00 PM *Question-and-Answer Session*
- 3:00 – 3:05 PM **Closing Remarks**

We know it is difficult for you to dedicate an entire day to participate in a virtual course during this time, so we have narrowed down the topics to the key issues most of you are currently focused on. Other topics related to comorbidities, issues in aging, and so on will be covered in our [COW webinar programing](#).

Though the timing is to accommodate our West Coast audience, the course will be open to everyone. We will have a virtual course on East coast time on July 14 and one on Central time in late July. Check the IAS-USA website regularly for details.
